

## 3 Piece Drumset Setup Guide

Thank you for purchasing the *Spectrum*™ Drum Set. Please take a few moments to familiarize yourself with the setup guide.

**This setup should only be performed by an adult.**

Check all of the parts listed below are included in the box. For greater safety, the Mounted Tom Drum should be mounted on the Bass Drum at an angle of 80 degrees.

**Warning: Not suitable for children under 5 due to small parts.**

### SET INCLUDES:

#### Drums:

**One 16" x 12" Bass Drum**

**One 8" X 5" Mounted Tom Drum**

**One 10" x 4" Snare Drum**

#### Drum Heads:

**One 16" Clear Batter Side Bass Drum Head**

[The Batter Side is the side of the bass drum nearest the drummer and is struck with the Beater – Foot Pedal]

**One 16" Resonant Side Bass Drum Head with Logo.**

The Resonant side of a Bass Drum is the side facing out to the audience.

**One 8" Batter Side Mounted Tom Drum Head**

On the Tom Drum, the Batter side faces up toward the drummer.

**One 8" Resonant Side Mounted Tom Drum Head**

On the Tom Drum, the Resonant Side faces down to the ground.

**Snare Drum Heads are already installed on snare.**

#### Legs:

**Two Bass Drum Legs**

#### Stands:

**One Snare Drum Stand**

**One Cymbal Stand**

Set shown for illustrative purposes only. Actual set may vary.

Snare Drum Stand

Cymbal Stand

#### Bag Packaged Parts:

34 Washers (A)

22 Short Tension Rods (B)

12 Long Tension Rods (C)

12 Bass Drum "Claws" (D)

1 Drum Key (E)

## Bass Drum Head Assembly

1. Place bass drum head with logo on front of bass drum head.
2. Place one of the bass drum hoops onto drum head.
3. Insert long tension rod (**C**) / washer (**A**) / bass drum claw hook assembly (**D**) into bass drum lug. Make sure claw hook is secure on the bass drum hoop. Tighten with your fingers.
4. Repeat this for all the lugs on one side of the drum.

BACK - Drummer's Side

5. After all tension rods on one side are finger tight, use the drum key (**E**) to tighten the #1 tension rod 3 turns. Follow these steps for tension rods #2 through #6 in a criss cross pattern as shown. Repeat this pattern, tightening each tension rod one half turn, until the drum head is taut and wrinkle free.
6. Repeat for the clear batter head on the opposite side of the drum.

## Bass Drum Leg Assembly (Spurs)

1. Insert both legs through the assemblies on the bottom side of the bass drum and tighten screw with drum key (**E**).
2. Adjust the angle to ensure the bass drum sits evenly on the floor when positioned.

## Mounted Tom Head Assembly

1. Place 2 ply batter head on tom shell. The batter drum head goes on the top.
2. Install tom drum hoop.
3. Insert short tension rods (**B**) with washers (**A**) through holes in drum hoop and tighten to finger tight.
4. Using drum key (**E**), gradually tighten each tension rod screw in equal amounts in a criss-cross pattern until head is taut and wrinkle free.
5. Repeat for bottom resonant drum head.

## Mounted Tom Assembly – to Bass Drum

---

1. Set desired height of support arms using thumb screws on tom mounting base (located on top of bass drum).
2. Loosen support collar 1. using drum key (E). Then, slide collar down to fit into mounting base. Make sure to align collar nub into indentation on mounting base.
3. Set angle of support arm to recommended 80 degrees and tighten thumb screw.
4. Using drum key (E) loosen support collar 2.
5. Slide mounted tom drum onto support arm and tighten support collar 2. The mounted tom drum should be located to the left when drumming.

## Cymbal Stand Assembly

---

1. Extend legs into open position.
2. Slide upper tubes into base and set desired height using set screws
3. Place cymbal between felt cushions. Leave thumbscrew somewhat loose to allow cymbal freedom to move when struck.
4. Set desired angle of cymbal using swivel adjustment.

## Attaching Bass Drum Pedal or Beater

---

1. Insert the bass drum beater into the bass drum pedal and tighten with the drum key (E).

2. Attached bass pedal to the bass drum hoop using the toe clamp.

3. Tighten the wingnut on the toe clamp until secure

## Snare Drum Stand Assembly

---

1. Extend legs of Snare Drum stand into open position.
2. Insert Wingnut into middle snare arm.
3. Adjust the basket to the desired angle with the tilter assembly.
4. Place snare drum in snare basket. The basket should be adjusted to fit snug to the drum

## Drum Throne Assembly

---

1. Fold out leg at the base of the Drum Throne.
2. Place center tube into base and tighten height adjustment wingnut.
3. Place seat on top and tighten wingnut.
